

Product Range

Fine & Specialty chemicals are generally perceived as standard fit for all offering. Today, customer wants these chemicals as custom-built, custom-packed to their requirements. Our MAX series is a portfolio of fine & specialty chemicals that go beyond what is standardly available and provide 'customised solutions' as per the client's needs

Customised as per your needs...

- Customised impurity profiling and quality control
- Customised packaging options
- Customised inventory point creation in supply chain
